

# Core C++ 2022

## Call for Sponsors

**September 5-7, 2022 :: Academic College of Tel-Aviv-Yaffo**

Core C++ 2022, the 3rd edition of the Core C++ conference, will take place on September 5-7 at the Academic College of Tel-Aviv-Yaffo. The conference brings together experts, seasoned developers, juniors, teachers, and students who are interested in the C++ language and related technologies. The conference features a wide variety of talks, covering topics such as future language features, advanced techniques, ecosystem tools, best practices, and language fundamentals. In addition to Israeli participants and speakers, the conference is open to international participants, and well-known international speakers are expected to give talks. The first two conferences, held in 2019 and 2021 at the same venue, were very successful, and were sold out.

The Core C++ 2022 conference is expected to include:

- 2 full days of lectures
- 2-3 parallel tracks
- 20+ talks, selected from community submissions
- Additional pre and post-conference activities
- 300+ attendees

The conference is a non-profit, community-based, and community-facing event. All income from sponsorships and tickets will be used to cover the conference expenses and Core C++ future events. We invite sponsors to support the local C++ community and connect with the conference participants.

*"For us, your conference was a huge success! We hired an excellent senior C++ developer through our booth!"*

*-- Happy Core C++ 2019 Sponsor*

## Exposure

- In 2022 we expect to welcome about 300+ attendees, mostly from Israel
- The conference will feature 25-30 speakers
- The Core C++ Users Group ([meetup.com/CoreCpp](https://meetup.com/CoreCpp)):
